6 TRADING MULTI ACCOUNT TRADING (MAT)

If your account registered as “Multi Account Trading” master account, then you can trade several sub accounts together. Trading Forex and BO symbols as usual, your trades will be distributed to several sub accounts.

You can see current status of your sub accounts at the “Sub Accounts” tab

The screenshot shows the 'Sub Accounts' tab with a table listing sub accounts. The table has columns for sub account number, status, allocation, and balance. A 'Manage' button is visible at the bottom.

Allocation:			Free Margin Allocation
#26162	0.00	10000.00	10000.00
Enabled	10000.00	0.00%	10000.00
#26163	0.00	15000.00	15000.00
Enabled	15000.00	0.00%	15000.00
#26164	0.00	20000.00	20000.00
Enabled	20000.00	0.00%	20000.00
#26165	0.00	25000.00	25000.00
Enabled	25000.00	0.00%	25000.00
#26166	0.00	19000.00	19000.00
Enabled	19000.00	0.00%	19000.00
#26167	0.00	11000.00	11000.00
Enabled	11000.00	0.00%	11000.00

Double click on “Manage” button to change allocation mode and sub accounts “Enabled” status:

The screenshot shows the 'Manage allocation and Sub Accounts' tab. It includes a table with columns for sub account number, 'Enabled' status, and 'Balance'. There are also checkboxes for 'Precise mode', 'Enforce full allocation', and 'Prohibit sub account close positions'. An 'Apply' button is at the bottom.

#	Enabled	Balance
#26162	ENABLED	10000.00
#26163	ENABLED	15000.00
#26164	ENABLED	20000.00

You can see MAT trades report for a certain time range in “MAT Log” tab:

The screenshot shows a web interface with an orange header bar containing a back arrow and the text "MAT log". Below the header, there are two entries separated by a horizontal line. The first entry is dated "02/Mar/2016 19:02:00" and lists a BO position #5000769 WIN (UP 1.00 AUDUSDbo) with a master account #26161 and profit of 0.74. It lists five sub-accounts with their respective profits. The second entry is dated "02/Mar/2016 18:56:47" and shows a master account #26161 created with allocation: FreeMargin, Precise mode: off, Enforce full allocation: on, and Prohibit sub accounts close/modify orders: off. It lists six sub-accounts with their balances and credit values.
